

BACHELOR OF ARTS ARTIFICIAL INTELLIGENCE

Develop the AI skills that employers need now.

From smart appliances to public safety and intuitive logistics, artificial intelligence now impacts our daily lives. The IU Online **BA in Artificial Intelligence** puts you at the forefront of this emerging landscape. Study machine learning, bot development, robotic process automation, and cognitive computing. Learn how to apply artificial intelligence, bot platforms, and frameworks to automate robotic and cognitive processes from start to finish.

Career Outcomes

Your degree will prepare you for such careers as:

- Artificial intelligence (AI) architect
- AI bots designer/developer
- AI UX researcher
- Business intelligence analyst
- Conversation designer/developer
- Human factors engineer
- Software developer
