Prepare your students to thrive in an increasingly technological world.

Technology is rapidly revolutionizing society, making it imperative that educators use digital tools to strengthen their teaching and improve student learning.

The IU Online Master of Science in Education (MSEd) in Educational Technology for Learning gives you hands-on experience with a variety of digital tools used in academic environments. This program prepares you to evaluate and select digital tools that empower you to create the best learning experiences for your students.

As a student in the program, you:

- Consider how to leverage technology to improve or transform your teaching.
- Develop new technology skill sets.
- Determine which technologies will help you achieve your pedagogical goals.
- Learn to promote creativity and active learning through the integration of digital tools.

Career Outcomes

The online MSEd in Educational Technology for Learning prepares you for careers in the K–12 sector such as:

- Technology coach or specialist
- Instructional coach
- Technology director
- Teacher with a specialty in technology integration
- Online curriculum developer
